

# CUSTOMIZING YOUR PLUMBING

We use Moen faucets in chrome as our standard. You may go to the Moen website at [moen.com](http://moen.com) to view them. They are under the Chateau collection but you can easily just type in the model # at the top of the page and it will display.

## STANDARD FAUCETS ARE:

- Kitchen Moen - #7185C #7594C #7882C
- Lav. Faucet - #4621 or #4925
- Tub/Shower - #L2353
- Shower - #TL182 #L2352

Our bathrooms come standard with (1) faucet. If you would like a double vanity, cost for the additional plumbing and fixture is \$325. You should build in more money for the vanity cabinetry if it was originally a vanity less than 5' long as it needs to be this width for a double vanity. In any collection, chrome seems to be the least expensive, then brushed nickel and oil-rubbed bronze is more expensive

We can show you other options (collections) for plumbing fixtures and give you pricing. Tile shower plumbing should be done through Levi at Millcreek Plumbing as there are many options. Please allow \$1,500 - \$2,500 pricing for tile shower plumbing.

## STANDARD BATHROOMS INCLUDE:

- Chateau Toilet paper holder
- Shower rod curved
- Hand towel circle holder
- 24" towel bar
- Plumbing for tub/shower
- (1) Faucet
- 5' Tub or shower
- Viper Toilet (white or bisque)

## HALF BATHROOMS INCLUDE:

- Toilet paper holder
- Hand towel circle holder
- (1) Faucet
- Viper Toilet (white or bisque)

During your plumbing walk-through, Levi will ask where you would like accessories located in each bath
